Evaluation Data Report
Multiscale Modeling of the Life Cycle of *Toxoplasma gondii* Working Group
Meeting One: May 16-18, 2011

Pamela Bishop
Program Evaluation Coordinator
National Institute for Mathematical and Biological Synthesis
July, 2011

This work was conducted at the National Institute for Mathematical and Biological Synthesis, sponsored by the National Science Foundation, the U.S. Department of Homeland Security, and the U.S. Department of Agriculture through NSF Award #EF-0832858, with additional support from The University of Tennessee, Knoxville.

Multiscale Modeling of the Life Cycle of *Toxoplasma gondii* Working Group, Meeting One
Evaluation Data Report

**Evaluation Design**

**Evaluation Questions**

The evaluation of the working group was both formative and summative in nature, in that the data collected from participants was intended to both gain feedback from participants about the quality of the current working group and also to inform future meetings. The evaluation framework was guided by Kirkpatrick’s Four Levels of Evaluation model for training and learning programs (Kirkpatrick, 1994\(^1\)). Several questions constituted the foundation for the evaluation:

1. Were participants satisfied with the working group overall?
2. Did the meeting meet participant expectations?
3. Do participants feel the working group made adequate progress toward its stated goals?
4. Do participants feel they gained knowledge about the main issues related to the research problem?
5. Do participants feel they gained a better understanding of the research across disciplines related to the working group’s research problem?
6. What impact do participants feel the working group will have on their future research?
7. Were participants satisfied with the accommodations offered by NIMBioS?
8. What changes in accommodations, group format, and/or content would participants like to see at future meetings?

**Evaluation Procedures**

An electronic survey aligned to the evaluation questions was designed by the NIMBioS Evaluation Coordinator with input from the NIMBioS Director and Deputy Director. The final instrument was hosted online via the University of Tennessee’s online survey host mrInterview. Links to the survey were sent to eleven working group participants on May 18, 2011 (working group organizers and participants associated with NIMBioS were excluded from the evaluation). Reminder emails were sent to non-responding participants on May 25 and June 1, 2011. By June 8, 2011, eight participants had given their feedback, for a response rate of 72%.

Views of Group Progress

Figure 1. Do you feel the working group made adequate progress, for its first meeting, toward finding a common language across disciplines in the research area?

Comments about finding a common language:

No comments

Working Group Format and Content

Figure 2. How do you feel about the format of the working group?

Yes 100%
Suggestions for improving group format:

No comments

Figure 3. Do you feel the participating in the working group helped you understand the research happening in other disciplines in the group’s topic area?

Comments about understanding research in other disciplines:

This was the first meeting and I feel it was very productive. I am looking forward to see how the group works together.

**Most Useful Aspects of the Meeting**

*The exchange of ideas.*

*Presentations and discussions.*

*Talking to researchers from a variety of backgrounds.*

**Impact on Future Research Plans**

**Figure 4.** Do you feel that the exchange of ideas that took place during the working group will influence your future research?

![Yes 100%]

**Comments about influence on future research:**

The first meeting of the working group has resulted in collaboration on a project involving mathematical modeling of toxoplasma infection. The organizers have put to ether and submitted a research proposal to NIH on a related project that I would not have been involved with if not for NIMBioS. Gustavo and I may begging collaboration on a side line project due to our interactions at the meeting.
Figure 5. Did you develop unanticipated plans for collaborative research with other working group participants?

Comments about plans for collaborative research:

*Academic collaborations have not begun yet but they should soon.*

Figure 6. Do you feel the expectations for the next working group are clear (in the sense that you are leaving this meeting with a good idea of what your contribution will be at the next meeting)?

Comments about understanding what is expected of working group members:

*It looks like we all have a good handle on what is expected.*

*Expectations were clear to me, at least.*

*We seem to be pretty well organized.*

Suggestions for Future Meetings

*The last morning was too short because we started to do some interesting work, an additional afternoon would be better.*
Additional Comments about working group

I found the working group to be very promising - a great group of people with much knowledge of and interest in T. gondii and very much wanting to work together to learn new and useful things about this disease.

It was productive in general as the first meeting.

Very active working group; good blend of math and biology. Well defined plans for future work and collaborations.
Appendix

Toxoplasma gondii Working Group Evaluation Survey
Toxoplasma gondii Working Group Survey

Thank you for taking a moment to complete this survey. Your responses will be used to improve the working groups hosted by the National Institute for Mathematical and Biological Synthesis. Information supplied on the survey will be confidential, and results will be reported only in the aggregate.

Please check the appropriate box to indicate your level of agreement with the following statements about this working group: (Very satisfied, Satisfied, Neutral, Dissatisfied, Very dissatisfied)

I feel the working group was very productive.
The working group met my expectations.
The presenters were very knowledgeable about their topics.
The presentations were useful.
The group discussions were useful.
I would recommend participating in NIMBioS working groups to my colleagues.

Please check the appropriate box to indicate your level of agreement with the following statements.

As a result of participating in this working group, I have a better understanding of: (Strongly agree, Agree, Neutral, Disagree, Strongly disagree)

the research data available on the working group’s topic
the modeling techniques available on the working group’s topic
the types of data needed to better inform existing models
new methods and modeling techniques that need to be developed

Do you feel the working group made adequate progress, for its first meeting, toward finding a common language across disciplines in the research area?

Yes
No
Comments:

Do you feel the participating in the working group helped you understand the research happening in other disciplines in the group’s topic area?

Yes
No
Comments:

Do you feel the expectations for the next working group are clear (in the sense that you are leaving this meeting with a good idea of what your contribution will be at the next meeting)?

Yes
No
Comments:
Do you feel that the exchange of ideas that took place during the working group will initiate or influence your future research?
   Yes
   No
   Please explain:

Did you develop unanticipated plans for collaborative research with other working group participants?
   Yes
   No
   Please explain:

What do you feel was the most useful aspect of the working group?

What would you have changed about the working group?

How do you feel about the format of the working group?
   This was a very effective format for achieving our goals
   This was not a very effective format for achieving our goals ->
   The working group format would have been more effective if:

Please indicate your level of satisfaction with the working group accommodations:
(Very satisfied, Satisfied, Neutral, Dissatisfied, Very dissatisfied)
   Travel arranged by NIMBioS
   Housing arranged by NIMBioS
   Comfort of the facility in which the working group took place
   Resources of the facility in which the working group took place

Please indicate any changes NIMBioS can make to improve the resources and/or accommodations available to working group participants:

Please provide any additional comments about your overall experience with the working group:
