3. How do you feel about the format of the working group?

4. Do you feel the working group made adequate progress, for its first meeting, toward finding a common language across disciplines in the research area?

5. Do you feel the participating in the working group helped you understand the research happening in other disciplines in the group's topic area?

6. Did you develop unanticipated plans for collaborative research with other working group participants?

7. Do you feel that the exchange of ideas that took place during the working group will influence your future research?

8. Do you feel the expectations for the next working group are clear (in the sense that you are leaving this meeting with a good idea of what your contribution will be at the next meeting)?

9. What do you feel was the most useful aspect of the working group?

Text Response

The presentation by the carbon ecologist and working on a simple soil carbon and enzyme model. This simple carbon models help my understanding of what the carbon ecologists wanted and it also helped throw more light as to the mathematical analysis require.

develop a better understanding between mathematicians and ecologists

Meeting a wide variety of other people who I can, and want to, work with in future

Having five days to get familiar with the skills and models of other working group members.

Talking with the ecologists.

10. What, if anything, would you change about the working group?

11. How satisfied were you with the following accommodations provided to you?

12. Please provide any additional comments about your overall experience with the working group:

Text Response

I am happy with this group, especially how the senior researchers in the group are willing to share their knowledge and support the younger researchers. I like overall positive energy of all the group members.

Very good.

very active and productive
