National Institute for Mathematical
and Biological Synthesis

Research Experience for Undergraduates Summer 2012

June 11- August 3, 2012

at

The University of Tennessee, Knoxville

Looking for a fun summer research experience? The NIMBioS Research Experience for Undergraduates (REU) program provides undergraduates in math, biology and related fields the opportunity to conduct research in teams with UT professors, NIMBioS researchers, and collaborators on projects at the interface of math and biology. High school teachers may also apply. The program runs for 8 weeks on the University of Tennessee-Knoxville campus.

Stipend, housing and support for travel provided! Participation also includes the opportunity to attend the Society for Mathematical Biology Annual Meeting.

For more information and to apply, visit:

<http://www.nimbios.org/education/reu>

The National Institute for Mathematical and Biological Synthesis (NIMBioS) brings together researchers from around the world to collaborate across disciplinary boundaries to investigate solutions to basic and applied problems in the life sciences. NIMBioS is sponsored by the National Science Foundation, the U.S. Department of Homeland Security, and the U.S. Department of Agriculture with additional support from The University of Tennessee, Knoxville.
